

Shankar Nagarajan

UI/UX Designer II

+91 6382052403 | Shankarnagarajan244@gmail.com | Coimbatore, Tamil Nadu | Coimbatore, Tamil Nadu | [LinkedIn](#) | [Portfolio](#) | [Behance](#)

UI/UX Designer with **1+ year of hands-on experience designing enterprise**, e-commerce, and EV mobility products. Skilled in UX research, wireframing, prototyping, and design systems using Figma. Passionate about building intuitive, scalable digital experiences with a **user-first approach**.

CORE SKILLS

UX/UI Methods: UI Design, UX Research, Wireframing, Prototyping, Empathy Mapping, Interaction Design, Design Systems, Usability Testing, Responsive Design

Design Tools: Figma, Whimsical, Illustrator, Framer and Miro

AI Tools: ChatGPT, Claude AI, Figma Make AI, Antigravity, Stitch

Domain Expertise: E-Commerce, EV Mobility, Lab/Healthcare Platforms, B2C/B2B, Admin Panels, Booking & Order Management

Soft Skills: Attention to Detail, Adaptability, Open to Feedback, Team Player

PROFESSIONAL EXPERIENCE

[UI/UX Designer](#) | INTELLIFER SYSTEMS | Jun 2025 - Aug 2026

Worked as a UI/UX Designer across 4+ digital product initiatives, designing enterprise applications, multi-app ecosystems, and responsive web experiences. Worked across the end-to-end design process, including user research, information architecture, user flows, wireframing, high-fidelity UI design, interactive prototyping, and design systems for customer, admin, vendor, and operational workflows using Figma.

Laboratory Discovery & Test Booking Platform

- Designed 50+ screens across customer, admin, and vendor journeys for test discovery, booking, sample collection, and reports.
- Simplified multi-step testing flows through clear IA, focused interactions, and progressive information.
- Responsibilities** - Created user flows, wireframes, UI using Figma and reusable components, while collaborating with stakeholders and developers on design systems, iterations, and developer-ready handoffs.

Laboratory Products E-commerce Platform

- Designed 50+ screens covering product discovery, orders, inventory, payments, refunds, coupons, and vendor management.
- Built consistent customer and admin experiences using 50+ reusable components.
- Responsibilities** - Developed user flows and Designed high-fidelity UI in Figma, translating requirements into scalable designs while supporting stakeholder reviews and developer handoff.

EV Battery Swapping Ecosystem - Multi-App Platform

- Contributed to 5 interconnected applications across customer, bike mover, station, warehouse, and operations workflows.
- Designed onboarding, battery booking, wallet, ride management, and station journeys, reducing user effort by 25%.
- Responsibilities** - Created wireframes, UI, and prototypes in Figma, establishing shared components, interaction patterns, and scalable design documentation across multiple applications.

Saree E-commerce Website

- Designed an end-to-end South Indian saree e-commerce experience for product discovery, browsing, and purchasing.
- Reduced navigation steps by 30% and navigation complexity by 35% through simplified Information Architecture..
- Responsibilities** - Created user flows, wireframes, responsive UI, and prototypes in Figma, building a scalable visual design system with typography, spacing, reusable components, and responsive patterns.

Freeze Fresh - Cold Storage Booking Platform

- Analyzed 20+ competitors and conducted 8 user interviews, identifying 3 key user pain points.
- Designed discovery, facility comparison, availability, and booking journeys for a simpler cold-storage experience.
- Responsibilities** - Created Information Architecture, user flows, wireframes, UI, and prototypes in Figma, applying user research, competitive analysis, reusable components, and iterative prototyping to improve usability and task clarity.

EDUCATION & CERTIFICATE

Bachelor of Computer Application (BCA) - Karpagam Academy of Higher Education, Coimbatore | 2018 - 2021

UI/UX Design - Asthra E-Learning | Figma Bootcamp - Lets Upgrade + NSDC
